RELIABLE, FIELD SERVICEABLE PNEUMATIC PIERCING TOOLS
HAMMERHEAD MOLE®

MATCH FOR ANY GROUND
More than 29 configurations of standard and reciprocating head designs are available to match any ground conditions.

HEAVY HITTER
High pressure, high powered tool with a body housing design that outlasts competitive models.

MULTI-APPLICATION
Suitable for the installation of gas, water, cable, irrigation, fiber or electrical lines.

BUILT TO LAST
Backed by an industry best 2-year limited warranty.

POWER PORT® REVERSE
Patented quarter-turn reverse feature locks into gear preventing accidental direction change.

THE ORIGINAL HAMMERHEAD MOLE.
Your shorter cable and utility installations don’t have to involve specialized heavy equipment, disrupting traffic and landscapes. HammerHead Mole pneumatic piercing tools give you the most efficient and cost-effective way to install gas, water, cable, irrigation, fiber or electrical service lines. It’s the ideal tool for residential jobs, letting you slip new lines neatly under sidewalks, lawns and driveways. The hallmark of the entire HammerHead Mole piercing tool line is the original clamped rear anvil design that provides for fast and easy field maintenance while being the most secure assembly available. With more than 29 models ranging from 2” to 5.75” (50 to 145 mm), HammerHead® Trenchless has a piercing tool to meet your needs in any ground condition.

DEBRIS FREE TAILCONE
Designed to eliminate debris entry into the tool body improving tool longevity.
SERVICEABLE DURABILITY. The original clamped rear anvil design provides 200% more clamp load and is the most secure and proven assemble available. HammerHead Moles also feature composite wear rings to decrease abrasion, providing a sustained level of performance.

PATENTED POWER PORT® REVERSE. The patented quarter-turn reverse feature pneumatically locks the tool in to forward or reverse, preventing accidental direction change during the bore.

TWO YEAR WARRANTY. HammerHead Mole piercing tools are backed by a two-year limited warranty compared to 90-days with the leading competitor. Plus, our piercings tools are supported by an international distributor network ensuring you have access to the parts and service you need to maintain productivity throughout the life of the tool.

WIDEST RANGE OF TOOLS TO SUIT YOUR GROUND CONDITIONS. HammerHead Mole tool models from 2 ½" to 5 1/8" (50 mm – 130 mm) available from your authorized HammerHead dealer give you access to more than 29 standard, Active Head® or Catamount designs.

ECONOMICAL TRENCHLESS INSTALLATION SOLUTION FOR UNDERGROUND UTILITIES
MOLETRAC® SYSTEM. You can track depth, position and direction of your tool's travel at depths as great as 10 feet (3 m) with the fully compatible BI Impact Beacon and compatible locator by Subsite® Electronics.

ENHANCED UTILITIES LOCATION SAFETY. For an efficient, cost-effective solution to help locate and avoid buried telephone, CATV, power, gas and water lines, simply add the optional UtiliGuard® Basic 5-watt transmitter to your fully compatible locator.
