

INTRODUCING THE ALL NEW **PORTAVISION³**

Flexi-Guard Spring

The Flexi-Guard Spring protects the camera and provides flexibility to handle 90 degree turns in pipes as small as 3-inch.

One-touch Recording

The integrated On-Demand feature is a one-touch recording button that records seven hours of video and audio to the included USB drive so you can easily upload to YouTube or email videos to customers.

Premium Push Rod

Advanced fiberglass spiral wound push rod has been specifically designed for longer pushing distances in 2 to 12-inch pipe and is designed to last up to 4 times longer than major competitors.

Large Hi-Res LCD Monitor

Inspect even the smallest of details on the large 10.40-inch LCD monitor with optimum viewing capabilities, night and day.

Clear View Camera Head

The self-leveling, Clear View camera provides the best picture in the industry with crisp color images.

Rugged Frame Design

Navigate easily even in rugged terrain with large 10-inch off-road wheels and an ultra-strong but light-weight frame design that fits into tight spaces. Extremely easy to transport to and from the job site.
